**AN ANCIENT RELIGION.**

To the excellent little series, "Religions:  
Ancient and Modern," which Messrs. Archi-  
bald Constable are publishing, a new volume  
is now added, dealing with the ancient religion  
of Japan, and coming from the pen of the  
author of "A History of Japanese Literature,"  
Mr. W. G. Ashton. The volume is very small  
and Shintoism briefly described, while the  
practical value of the work is considerably increased  
by the addition of a short bibliography of books  
dealing with this subject.

Shintoism, in recent years, has lost some-  
thing of its hold upon the Japanese, and Bud-  
dhism now attracts a large number of devotees,  
while Christianity has an important following.  
The period when Shintoism flourished in an  
unadulterated form is exceedingly remote, and  
dates probably to the twelfth century, if indeed,  
that epoch had not already begun to register a  
significant departure from the original standards  
of the religion. Nevertheless, although Shinto-  
ism contains evidences of a Korean element  
as well as certain Chinese tracts, on the whole  
it is an independent development of Japanese  
thought. At the same time it is not to be con-  
founded with ancestor worship, with which  
many Japanese and most European authorities  
do identify it. Although in its modern observ-  
ance there is, perhaps, too much of the ancestor-  
worship element, Shintoism bespeaks the adora-  
tion of a god, not the mere worship of man.  
Much myth and a confusion of the godheads  
has crept into the Shinto Pantheon, the latter  
embracing many degrees of nature gods. In  
the older Shintoism the various types occupied  
a prominent position, but one among them, the  
Phallic symbolism, has long disappeared.

In the earliest stage of the religion, Shinto-  
ism possessed its Government Bases, and the  
Mikado was at once the high priest as well as  
the leader of the nation. Even nowadays, the  
Japanese Sovereign occasionally officiates at  
some of the Shinto rites, but more frequently  
he deposes his sacerdotal functions to some  
one else. Again, Shintoism can hardly be said  
to possess a code of morals, but if ethics are  
conspicuous by their absence the doctrine of  
cleanliness holds a prominent position. Fre-  
quent bathing and the constant change of  
raiment were imposed upon its believers, while  
certain acts of a sexual character were accom-  
panied by religious penalties, although adul-  
tery did not, and does not, constitute a Shinto  
offence.

At the present day most of the former elab-  
orate ritual of Shinto is neglected or shorn  
of its ancient magnificence, the decline dating  
back to the appearance of Chinese philosophy,  
as well as Buddhism, in the Island Kingdom.  
Under the influence of Buddhism a more  
humane note crept into Shintoism, while the  
patronage of Buddhism by certain Mikados  
caused the earlier faith to lose some of its  
standing, as well as its holding upon the  
people. To-day there is no doubt that Shinto-  
ism has fallen from its high estate. Without a  
code of morals, or an efficient ecclesiastical  
organization, with little aid from the arts of  
painting, sculpture

## BULLETIN DE LA BOURSE

(Aujourd'hui à 11h. 1/2 a.m.)

Ce matin, alors qu'on s'attendait à une dépression occasionnée par l'importante vente aux enchères qui a eu lieu et dont nous donnons plus loin le résultat, c'est tout le contraire qui s'est produit. Grâce à l'excellente tenue des places européennes et sans doute à quelque autre motif spécial encore inconnu de la masse, la cote s'est relevée sur toute la ligne et sur nombre de titres, la plus-value est considérable, il faudrait dire sensationnelle en cet interminable état de marasme où nous nous débattons depuis la crise. Cela va-t-il durer et la hausse va-t-elle s'accroître, c'est ce qu'il n'est guère possible de dire, avant de s'être assuré des raisons, sérieuses ou non, sur lesquelles elle est étayée. En attendant, elle a permis au gros paquet mis en vente de s'écouler sans difficulté, à la surprise générale.

Parmi les avances les plus remarquables, il faut signaler celles de la National Bank de 20 3/8 à 20 7/8, de la Béhéra de 20 à 20 1/4, des Nungovich Hotels de 13 7/8 à 14 1/8, des Sucreries de 28 à 32, de la Land Bank de 7 1/8 à 7 7/16, de l'Urbaïne de 3 13/32 à 3 9/16, du Comptoir de 12 13/32 l'ancienne, 2 7/16 la nouvelle et 2 1/8 la fondatrice à 2 5/8, 2 1/16 et 2 1/4 respectivement.

L'Agricole progresse également de 8 5/32 à 8 1/4 vendeurs, la Delta Light de 9 11/16 à 9 7/8, l'Alexandria Water de 11 1/4 à 11 3/8, les Jouissances Eaux du Caire de 193 à 193 1/2, la Daira de 12 5/8 à 12 13/16, l'Obligation Crédit Foncier de 297 à 300 l'ancienne et de 253 à 253 1/2 la nouvelle, la Banque d'Athènes de 110 à 112, l'Union Écossaise de 4 3/8 à 4 7/16, le Crédit Franco Égyptien de 4 1/32 à 4 1/8 et la Banque d'Orient de 119 1/2 à 123.

En petites valeurs le mouvement est moins uniforme : la Cassa di Sconto monte de 38 1/2 à 41, la Delta Land de 1 3/4 à 1 13/16, l'Ordinary Khedivial Mail de 20/6 à 20/9, les Estates de 5/8 à 21/32, la Building Lands de 2 à 2 1/32 et les Ritz de 1 5/8 à 1 23/32, tandis que les Markets fléchissent de 28/6 à 28/3, les Dividendes Bière du Caire de 40 à 37, et la fondatrice United de 1 5/8 à 1 1/2.

En gros titres, seules les Dividendes Tramways réactionnent de 298 à 295.

Les affaires ont porté principalement sur l'Agricole, la National Bank, les Ritz Hotels, la Delta Land, le Comptoir, l'Urbaïne, la Daira et les Nungovich. Sur les autres valeurs en hausse il y a eu de la demande, mais peu ou point d'affaires.

Les ventes aux enchères, que nous avons déjà annoncées vendredi dernier, ont eu lieu ce matin aux prix suivants : 65 Dividendes Tramways d'Alexandrie à 295, 30 National Bank à 20 27/32, 19 Privileged Menzaleh Canal à 113/16 et 75 Dividendes à P.T. 40, 5 Deferred Warian Estate à 25, 4 Obligations anciennes Crédit Foncier Égyptien à 301, 40 Dividendes Brasserie du Caire à 37 et 10 à 35, 60 Privileged Delta Light à 9 27/32, 7/8, 150 Investment (Abdy) à 1/2-17/32, 150 Estates à 21/32-11/16, et 75 Building Lands à 21/32.

## AVIS AU PUBLIC

Plusieurs cas de rage furieuse du chien ayant été constatés par le Service Vétérinaire Municipal en très-petit nombre, une recrudescence de la maladie est à craindre (les chiens reconnus enragés ayant certainement mordu nombre de leurs congénères).

La Municipalité ne saurait trop recommander aux propriétaires de chiens de se conformer strictement au Règlement Municipal qui prescrit le musellement obligatoire et la tenue en laisse. Ces deux mesures observées avec persévérance permettront d'enrayer le mal et même de le faire disparaître à bref délai.

## ALEXANDRIA SPORTING CLUB.

## SEPTEMBER SKYE MEETING.

The coincidence of the Cairo-Alexandria cricket match with the race meeting on Saturday afternoon may have somewhat accounted for the poor turnout of the attendance at the Sporting Club, but as has before been remarked concerning these off season meetings, nothing was lacking in enthusiasm on the part of those who were present, nor can fault be found from a racing point of view. In fact the excitement of one or two keenly fought contests and some brilliant riding from the jockeys made it quite as enjoyable as some of the more important season meetings. Chi-Jo-Sa, nicely ridden by Challenger picked up two races, and Ruy Blas with the same jockey won a good race in beating Beylan. Kahraman won fairly easily from Nigmah, but the latter was disqualified for carrying overweight, causing some dissatisfaction to its backers. The consistent Radium was not good enough for Mystere in the September Plate, and although Kara Aslan looked a runaway winner of the Autumn Stakes, Grey Dawn with Stillwell up got home in a pretty finish. The Band the Royal Dublin Fusiliers under the conductorship of Bandmaster A. Fawcett, played an excellent selection of music, and it will be with some regret that we shall say farewell to this band upon its departure for Khartoum in October.

## FIRST RACE, 3.30 p.m.

Mr. A. J. Sursock's, ch. a. p. Chi-lo-sa, 10.3. Challenger.

Baron J. E. de Menasse's, g.a.p. Hercule, 10.7. Mathews.

Six runners. After some delay at the post a fair start was made, Chilosa and Milord being the first to show. This order was unchanged round the bend, but near home Nawar and Blanc Bee were drawing up, resulting in a good race between the latter and Chilosa, of which Chilosa got the advantage. Blanc Bee was second and Nawar third.

Totalisator paid 1st P.T. 48. Places P.T. 19; 25; 115.

## SECOND RACE, 4 p.m.

MAIDEN HORSE RACE OF P.T. 2,500 of which P.T. 500 to go to 2nd horse. For Arabs that have never won Stakes or place money of the advertised gross value of L.E. 10 in any race of any description. Gymkhanas excepted. Weight for age. Distance 1 mile. Entrance P.T. 125.

H.H. Prince Omar Pasha Toussoun's ch.a.h. Kahraman, 9.11. Lawrence.

Mr. G. L. Sursock Bey ch.a.h. Mirator, 9.11. Milani.

Mr. A. J. Sursock's ch.a.h. Happy Boy, 10.7. Challenger.

Capt. Hon. R.G. Forbes' b.a.h. Nigmah, 7.11. Stillwell.

Five runners. Start on far side of course, a straggling field being led by Kahraman which upon rounding the bend came away an easy winner with Nigmah second and Elegant II third. Mirator was tailed off. Nigmah was disqualified for carrying overweight, and Elegant was therefore placed second.

Totalisator paid 1st P.T. 41. Places P.T. 19—23.

## THIRD RACE, 4.30 p.m.

MAIDEN GALLOWAY RACE OF P.T. 1,250 of which P.T. 250 to go to 2nd horse. For Arab galloways that have never won Stakes or place money of the advertised gross value of L.E. 10 in any race of any description. Gymkhanas excepted. Weight for age and inches. Distance 1 mile. Entrance P.T. 75.

Mr. A. J. Sursock's ch.a.p. Chi-lo-sa, 9.9. Challenger.

Mr. E. Bustros' b.a.h. Don Quichotte, 10.3. Stillwell.

Ibrahim Bey Cherif's g.a.h. Korti, 10.7. Burnham.

Ibrahim Bey Cherif's, c.a.h. Hadgi Madwar, 10.5. Thompson.

Baron J. E. de Menasse's g.a.p. Hercule, 9.13. Mathews.

H.E. Khalil Pasha Khayat's g.a.p. Kharouf, 8.11. Lawrence.

Six runners. A good start was led by Korti with the field well bunched. Near the bend Mathews on Hercule drew up but upon coming round had given way to Don Quichotte and Chi-lo-sa, the latter well ridden by Challenger winning a good race from Don Quichotte and Korti.

Totalisator paid 1st P.T. 55. Places P.T. 21-38-36.

## FOURTH RACE, 5 p.m.

SELLING RACE OF P.T. 2,000. For Arabs that have never won a selling race. Top weight 10.7. Galloways 10.3. Ponies 10.0. Winner to be sold for P.T. 3,000, 7 lbs. allowed for every P.T. 1,000 below that price. Distance 3/4 mile. Entrance P.T. 125.

Mr. A. J. Sursock's g.a.p. Ruy-Blas, (to be sold for P.T. 2,000), 9.7. Challenger.

H.H. Prince Omar Pasha Toussoun's b.a.p. Beylan, (to be sold for P.T. 2,000), 9.7. Lawrence.

Mr. E. Bustros' b.a.h. Don Quichotte, (to be sold for P.T. 3,000), 10.3. Stillwell.

Hassan Bey Khor El Din's b.a.p. Askar, (to be sold for P.T. 3,000), 10.0. Basil.

Although only four starters went to the post, this furnished an exciting race. Askar was first to show with Ruy Blas second, but upon rounding the bend, Beylan had taken the lead from Ruy Blas. Beylan looked a winner but Ruy Blas challenged and just got home in a tight finish from Beylan.

Totalisator paid 1st P.T. 39. Places—P.T. 29—38.

## FIFTH RACE, 5.30 p.m.

SEPTEMBER PLATE OF P.T. 1,250 of which P.T. 250 to go to 2nd horse. For Arab ponies. Weight for age and inches with penalties that have never won stakes or place money of the advertised gross value of L.E. 20 or more in any one race allowed 7 lbs. Winners of Stakes or place money of the advertised gross value of L.E. 100 in any one race to carry an extra penalty of 7 lbs. Distance round the course. Entrance P.T. 75.

Saleh Bey Yaghen's g.a.p. Mystere, 9.0. Fields.

Baron J. E. de Menasse's ch.a.p. Radium, 9.7. Mathews.

H.H. Prince Omar Pasha Toussoun's b.a.h. Hadban, 8.13. Lawrence.

Baron J. E. de Menasse's g.a.p. Petrone, 9.7. Stillwell.

Another excellent race with a small field. Mystere led for the greater part of the course with Petrone second and Radium lying third. Entering the straight the latter drew level with Mystere but Fields was not to be beaten and although Mathews tried hard Radium was not good enough, Mystere winning in good style.

Totalisator paid 1st P.T. 49. Places P.T. 27—24.

## SIXTH RACE, 6 p.m.

AUTUMN STAKES OF P.T. 1,250 of which P.T. 250 to 2nd horse. For Arabs. Weight for age with penalties. Horses that have never won stakes or place money of the advertised gross value of L.E. 20 or more in any race allowed 7 lbs. Winners of stakes or place money of the advertised gross value of L.E. 100 in any one race to carry an extra penalty of 7 lbs. Distance round the course. Entrance P.T. 75.

Ishak Bey Hussein's g.a.h. Grey Dawn, 8.12. Stillwell.

Ibrahim Bey Cherif's g.a.p. Kara Aslan, 8.9. Thompson.

Baron J. E. de Menasse's g.a.h. Fainant, 9.7. Mathews.

H.H. Prince Omar Pasha Toussoun's g.a.h. Hilal, 9.0. Lawrence.

Ishak Bey Hussein's b.a.h. Ragheb, 8.11. Lambro.

Ibrahim Bey Cherif's g.a.p. Kordofan, 9.5. Burnham.

Mr. A. J. Michaelides' g.a.h. Mercury, 8.12. Batty.

Kara Aslan broke through the tapes, but after a little delay a good start was made, Hilal being the first to show. Kara Aslan was however soon away and took a big lead from Ragheb. Entering the straight Ragheb drew level and it looked a race between these two, but Guy Dawn was coming away and in an excellent finish got the better of Kara Aslan, with Fainant third.

Totalisator paid 1st P.T. 31. Places—P.T. 26—28—46.

## 100 MILES AN HOUR.

## HUGE SPEED PROMISED FOR WARSHIPS.

The British Admiralty has now under consideration a new form of marine engine and propeller which, the inventor claims, will revolutionize not only naval warfare, but the navigation of the whole world.

The invention is the fruit of much ingenuity, labour, and expenditure on the part of Mr. F. Maltman, of Redburn-street, Chelsea, who has devoted to it years of study and experiment. At first sight the engine resembles a turbine, but closer inspection reveals important differences. Steam from any type of boiler is brought to bear upon a shaft fitted with twelve chambers, divided into two sets of six each. Shaft and chambers are all of steel, cast in one piece, and of great strength. Exactly what the arrangement of these chambers is the inventor deems it imprudent at present to disclose, but it is such that the admission of steam through the orifices at their ends causes the shaft to revolve at a tremendous speed.

So great is the power of the new form of engine, indeed, that the inventor considers it useless to apply it to the ordinary screw propeller lest the terrific pace should result in the formation of a complete or partial vacuum in which the screw would "race" without exerting its propulsive force. He has accordingly devised a modification of the screw propeller which will make a return in speed for all the power that can be applied to it.

The screw has three blades, each of the shape already familiar, but instead of being attached to one small hub, they are fixed at intervals of a couple of feet from one another to a long shaft. The result, of course, is that each blade works in its own water, instead of in that through which its fellow has cut but a moment before. The shaft is fitted with three of these dissected screws, each of them with a larger orbit than the one immediately in front of it, so that when set slowly in motion it presents to the eye the effect of huge cork-screw worms, its way forward.

The shaft bearing the three screws is fixed immediately beneath the keel of the boat, and runs parallel with it and with the driving shaft

and its twelve chambers. This occupies so little space that practically the only machinery in the body of the boat will be the furnace and boiler, and the inventor, therefore, believes that in the case of cargo vessels the device will have the advantage of adding to the carrying capacity as well as of increasing the speed. It is, however, in naval warfare that he expects for the invention the greatest immediate utility. Up to now, the new system has been tried only on models upon the Serpentine and the Thames, but the speeds attained in the largest of these lead Mr. Maltman to believe that on a vessel with the size and steam power of a present-day torpedo-boat it would yield a velocity of 100 miles an hour.

That, however, can only be determined by experiments upon a larger scale than has yet been possible, and he has accordingly applied to the Admiralty for the loan of a hull and boilers to which the new engine and propeller could be fixed at comparatively slight cost, so that their utility may be determined once for all.

## AUTOMATIC SPRING FINDER.

The Automatic Spring Finder, recently introduced into England by Messrs. W. Mansfield and Co., engineers, Crewood-buildings, Brunswick-street, Liverpool, has excited the greatest interest among water engineers in all parts of the world, several of whom have come over specially to this country to investigate its merits, and led by Mr. R. H. Smyth, M.I.M.E., the celebrated African wellboring engineer, and himself an expert with the diving rod. Many interesting experiments have been carried out in the United Kingdom which go to show that the instrument fully carries out the claims of the inventor. Unlike the diving rod, which must be acted upon by influences other than that produced by subterranean water, the Automatic Spring Finder is unfailing in its action. The device is simplicity itself and is one which may be used without any previous knowledge. Placed on its little tripod stand with the small magnetic needle fixed in position, the needle at once begins to oscillate, in some cases as much as 150 degrees should there be a subterranean stream at any depth up to 1,000 feet. If no water is present under where the instrument has been fixed the needle remains stationary.

It is a marvellous device, and one which well merits the interest it has excited. For such countries as South Africa, South America, Egypt, and India it is likely to prove invaluable.
